

OKLAHOMA PROVEN SELECTIONS FOR 2000

Bald Cypress

Taxodium distichum

This large Oklahoma native will lose its leaves in the fall after turning a russet or coppery-bronze and can easily grow to 70' high with a 30' spread. Tolerant of both wet and dry soils, Bald Cypress makes an outstanding specimen, street tree, or pond-side grove.

- Sun exposure: Full
- Soil: Well-drained to flood tolerant
- Hardiness: USDA Zone 4

'Magic Carpet' Spirea

Spiraea japonica

'Magic Carpet' Spirea is a new compact cultivar from England with dark pink flowers and reddish shoots bearing gold-tinged young foliage in spring. This shrub will remain compact, making it perfect for mixed borders, rock gardens, or small-scale landscapes.

- Sun exposure: Full
- Soil: Moist, well-drained
- Hardiness: USDA Zone 4

OKLAHOMA PROVEN SELECTIONS FOR 2000

‘Homestead Purple’ Verbena *Verbena canadensis*

Homestead Purple’s deep purple flowers and trailing habit make it perfect for hanging baskets, as a ground cover, or as the foreground of a mixed border. This North American native will bloom from spring to frost, slowing down only slightly during the hottest months.

- Sun exposure: Full
- Soil: Moist, well-drained
- Hardiness: USDA Zone 4

Fan Flower

Scaevola aemula

Fan Flower is an evergreen tropical used as an annual in temperate climates. This low-growing plant carpets the ground with flowers all season long when grown in full sun. It prefers a moist, well-drained soil but is quite drought tolerant once established.

- Sun exposure: Full
- Soil: Moist, well-drained
- Hardiness: Use as an annual
